BIBLICAL HEROES

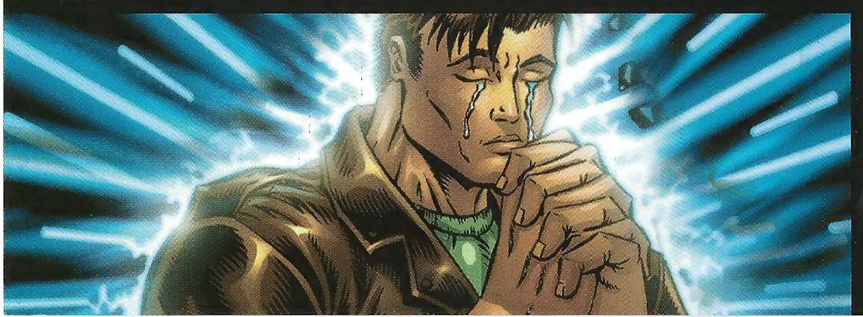

One does not have to look far to notice the influence of comic book heroes throughout the world; Superman, Batman, X-Men, Spiderman, Spawn, the list goes on and on. According to Diamond Comic Book distributors, the United States largest mainstream comic book distributor, there are over 2,000 comic book titles published monthly; over 62,000,000 sold each year. These comics have evolved into blockbuster movies, theme parks, video games, television programming, custom jewelry, clothing apparel and much more. Comics have evolved into a worldly pulpit that is governed by a faithless subculture.

What if Christians could use this powerful medium to spread the Gospel?

The comic book and film industry has, in recent years, manufactured the so-called "anti-hero," a hero, who is faithless, morally bankrupt, and more often than not... overtly evil. This twist on the traditional morality of classic superheroes has generated issues of great concern throughout the Christian community. This trend will continue to undermine traditional Christian values and thinking unless we offer modern faith based alternatives.

How can we plant the seeds of the Gospel deep into the hearts of our youth?

Cahaba Productions Inc. opened its doors in 2002 to fulfill a great need for progressive and appealing comic oriented products; modern ministry tools that were desperately lacking in the Christian youth market. The strength of our products (illustrated comic novels, card games, and inspirational posters) are heroes and legends consistent with the Word of God. This approach will reap a great harvest for God for many generations to come and reach teenagers right where they are. Let's influence the present generation and those to follow with positive Christian role models and mentors; dynamic stories and heroes that focus on our ***Lord*** and ***Savior Jesus Christ***.
